

TITAN 100 Series Valve Wheel Wrench

TITAN "100 SERIES" VALVE WHEEL WRENCHES are made from aluminium-magnesium to reduce the chance of sparks when opening stubborn valves.

An improved base pad design, a comfortable rounded gripping area, and the overall smooth finish of the wrench are features that add to the high standard of quality expected in all Gearench products.

| TITAN "100 Series" Valve Wheel Wrench | | | |
|---------------------------------------|--------------------------|---------|--------|
| ITEM | OVERALL LENGTH (approx.) | OPENING | WEIGHT |
| VW101AL | 13-5/8" | 1-3/8" | 0,96 |
| VW102AL | 17-5/8" | 1-3/4" | 1,59 |
| VW103AL | 25-1/2" | 2-1/2" | 3,52 |
